

GLOW OASIS

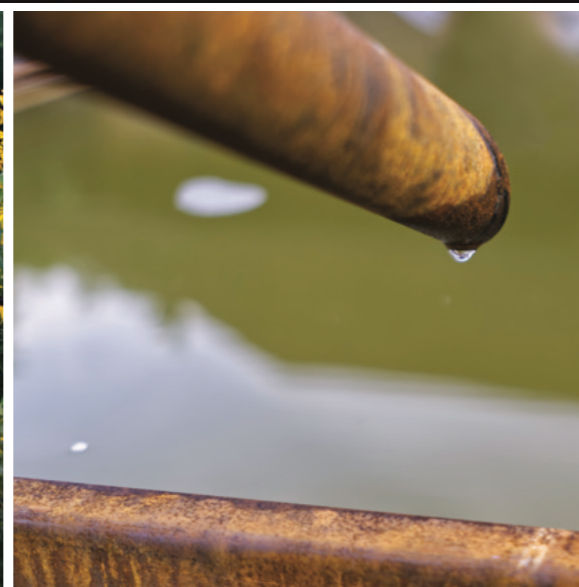

Immerse yourself in the realm of exquisite elegance with Glow Oasis – Swiss masterpieces crafted from Corten steel that redefine the concept of luxury. These freestanding ponds embody the fusion of aesthetics and timelessness in an unparalleled manner. Glow Oasis is more than just a water feature; it is an ode to nature. The cubic design of Glow Oasis represents minimalist elegance and pure nobility. Its clean lines and perfect form seamlessly integrate into various environments, whether it be lush gardens or exclusive rooftop terraces.

Corten steel creates an enchanting rust patina that gains character over time, emitting a distinctive aura of sophistication.

Glow Oasis can be equipped with gentle LED lighting that bathes the water in a dreamy glow. The combination of flowing water and warm radiance creates an atmosphere that touches the senses and nourishes the soul. Glow Oasis is your haven of serenity, an embodiment of luxury, and a testament to beauty. Welcome to a world where art and nature harmoniously come together to create a first-class experience. Experience the brilliance of Glow Oasis – your personal masterpiece of luxury.

Consultation

Guidance from the beginning. We take the time for you and are happy to accompany you from planning to delivery and installation. It is important to us to provide you with competent advice at all times, whether it's over the phone or in person.

Delivery to Switzerland

For delivery and installation in Switzerland, we are pleased to offer you a comprehensive service package. Simply provide us with the location and access details, and based on this information, we will gladly provide you with a customized offer.

International Delivery

For more distant regions in Europe and abroad, we will be happy to provide you with freight and customs clearance costs upon request.

Technology

Glow Oasis goes beyond the ordinary; the Glow Oasis basins are expertly crafted from high-quality Corten steel. This unique material forms a premium rust layer that not only enhances the natural patina but also prevents complete rusting, ensuring exceptional durability.

Glow

Our Glow package offers a sophisticated LED option, featuring top-notch high-performance LEDs. These not only deliver outstanding results but also minimize power consumption to a minimum. A perfect synergy of efficiency and aesthetics. Due to its integration capability, Glow Oasis can seamlessly become part of your Smart Home. This allows you to control your oasis of serenity directly through your home automation or smartphone – a harmonious fusion of luxury and technology that grants you full control over your experience.

Water Feature

Glow Oasis also offers the option to enhance your experience with the addition of a playful fountain. Thanks to concealed cable routing, the elegant lines remain uninterrupted, allowing you to fully appreciate the seamless aesthetics.

Cable Routing

Upon request, we are happy to offer additional hidden cable routing options – whether for your customized water features or misters. Explore the opportunity to tailor the aesthetics of your Glow Oasis to your preferences. Inner diameter: 8mm.

Filter Connection

Two additional connections in the base allow you to connect an external filter. The connection pipe has an outer diameter of 10mm and an inner diameter of 8mm.

Your Idea

Create your unique Glow Oasis: shape, color, size – according to your desires. Simply ask us!

Notes

We strongly recommend checking the maximum allowable floor load before placing the Glow Oasis on terraces or wooden floors. This ensures the safety and stability of your installation.

Please note that in temperatures below freezing point of 0 degrees Celsius, your Glow Oasis must be emptied and covered. This is essential to maintain the functionality of your Glow Oasis and prevent potential damage.
